

CTS-16

SEQUENTIAL, VIDEO SWITCHER

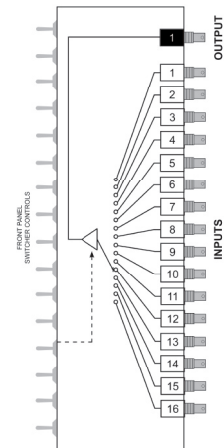

KEY FEATURES:

- High quality Video Performance
- UL listed power supply
- Made in USA
- High quality Construction
- 5 Year Warranty

The **CTS-16** is a high performance 16x1 composite video sequential switcher. The switcher is designed to handle up to sixteen high resolution color video sources and uses an external UL listed power supply to meet today's safety requirements. Switching occurs during the vertical interval to minimize monitor roll. Designed with advanced technology, the CTS line of switchers are extremely reliable and can serve as the heart of any video system.

SPECIFICATIONS

Video:		Operational:	
Inputs (16):	Composite Video	Switches (16):	3 Position Toggle Switch
Input Connector Type:	BNC	Indicators (16):	LED Lamp For Each Input
Input Level:	1vpp Nominal, 2vpp Max	Sequence Interval:	Variable: 1 sec. To 90 sec.
Input Impedance:	75 Ohm +/-5%	Power Requirements:	
Outputs (1):	Composite Video	Power Connector:	3.5mm Phono Plug Center +
Output Connector Type:	BNC	AC Operation:	Use 12VDC AC Adapter
Output Impedance:	75% +/- 5%	DC Operation:	12 To 20VDC Ungrounded
Gain Out/In:	Unity Into 75Ohms +/-10%	DC Power Draw:	<2.5 VA
Frequency Response:	0-5mHz +/- 0.5dB	Mechanical	
	5-15mHz + 1.0dB	Size:	19"W x 6.8"D x 1.7"H
Diff. Gain:	<0.8%	Weight:	<3.0lbs
Diff. Phase:	<0.8 Degrees		
Horiz Tilt:	<1%		
Vert. Tilt:	<1%
